

Welcome to our Quiz Event

Hi and welcome to our fun quiz event.

We have a whole series of questions designed to test your general knowledge and ability to retain silly bits of trivia.

None of the questions are particularly difficult and if you don't know the answer then it's always worth a guess!

3 steps to success

1. Name your Team – Give your team a cool name. Something that will reflect your academic abilities and intimidate the opposition with your intellectual prowess!

2. Play your Joker – Look at the categories on the answer sheets. Play your joker on the round you think you will do best at. You must select it in advance by putting J next to the name of the round. Every question you get right will be worth double points.

3. Play your Donkey – Choose the category you think is likely to be your weakest. Select it by putting D next to the name of the round. Every question you get right will only be worth half points.

There will be a break after round 4 and the answers to the first rounds will be revealed.

The Final Reckoning – after round 8, and a second set of answers, we will be able to name our Champions.

Good Luck
